To,  
The Recruitment Manager  
Orion Health

Kia Ora,

I am writing to express my interest in the Graduate Software Engineer role at Orion Health. With more than **5 years of experience as a Software Engineer** and my latest qualification in Applied IT at Waikato Institute of Technology, I am well-prepared to contribute to your innovative and dynamic environment. My expertise in .NET, C#, SQL Server, JavaScript, React, and Vue.js equips me to effectively analyse, design, develop, maintain, and refactor solutions to meet customer needs.

I moved to New Zealand to pursue advanced studies and gain international experience, appreciating the country's inclusive and innovative culture that values community, learning, and collaboration. In my previous role, as a **Web Developer Intern at RTFI in Hamilton**, I developed a high-performance, SEO-optimized website using Next.js and TypeScript. I demonstrated strong communication skills and the ability to handle complex challenges independently, making me a strong candidate for this role.

I have a proven track record in mentoring team members and contributing to strategic initiatives. My time management and client communication skills were honed through roles where I enhanced team performance and earned recognition, such as the **"Pat on the Back" Award in November 2021 and June 2020**.

Please refer to my resume for a detailed overview of my skills and achievements. I am keen to discuss how my background aligns with your team's needs, and I am available for an interview at your earliest convenience. Thank you for considering my application.

Have a great day ahead.

Thank you and warm regards,  
Sumit Kumar Sharma
